

Jenna Antczak

Office Administration

I have been a (part time) behind the scenes supporter of LifeWise since my husband and I purchased the company several years back.

My full-time job is a domestic engineer (stay at home mom 😊), which has been an absolute joy these last 15 years.

Prior to that, I taught High School mathematics for 9 years. My favorite subjects to teach were Algebra and Geometry. I studied math education and hold a Master of Science and Bachelor of Science degrees from the University of Wisconsin-Oshkosh and University of Wisconsin-Eau Claire, respectively. When not busy “holding down the fort” and taking care of our family schedules, which includes 2 high schoolers, I enjoy spending time with family and friends, teaching spin class, reading and watching my kids play sports or whatever activity they are involved in....oh yes, I Love tutoring in math with my spare time.

I am extremely grateful to be part of the LifeWise team.
